

5 simple steps to download images

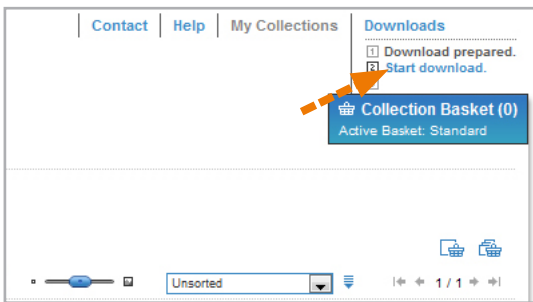

1. Select one image and click on the icon for download.

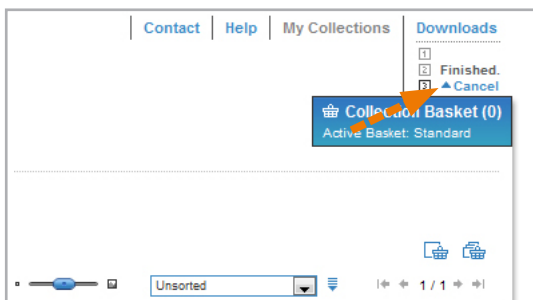

2. You will have a couple of download options - choose one and press "Download Now"

3. Preparing download... (Right upper corner of your screen)

4. Press on "Start download". You will have two options - to open the image or to save the image.

5. Press on "Cancel" to clear download before you download a new image.
